ELIANT NEWS September 2008

Only 475.000 more to reach our goal! Invitation to the Finish!

Dear ELIANT Friends,

It was a great joy for all participants when – at the end of August the 500,000th signature for ELIANT arrived – a milestone. Thanks to the tireless voluntary efforts of many individuals throughout the world, we together have reached this decisive stage of our goal. We would like to send a heartfelt thank to all who have participated!

Now, however, it is imperative that we spread the word about the Action ELIANT with new commitment around our private and professional environment. For, many people are doing their utmost to ensure that choice will be maintained in Europe in the areas of nutrition, health and education, and will gladly support the collection of signatures when they become aware of it. Therefore, we hope very much that you will continue with your efforts, to spread the Action and to display the lists of signatures or the postcards at all suitable events, i. e. at autumn festivals and then to send them back to us.

The return of the ELIANT postcards of the great campaign, about which we reported in the last newsletter, has started. The first cards with new signatures have already made it back, and we have received much positive response. Please remember, if you have signed already, pass the card on, and do not sign a second time!

„How do we bring about a good agriculture that respects nature, and a humane medicine? How do we create a sustainable economy, and a pedagogy that cares for the individual? The initiatives that have aligned themselves with ELIANT and many of their supporters feel that such questions aim at the heart of Europe.“ This sentence by MD Michaela Glöckler originates from an interview that Ralf Lilienthal conducted for the latest edition of *a tempo*. The interview has the title: Conditions of a civil society and it describes the motives and concerns of the Action ELIANT. *a tempo* is also available with *alverde* in all dm-drug-stores, free of charge. You can also download the article under www.eliant.eu/ News or request it from us.

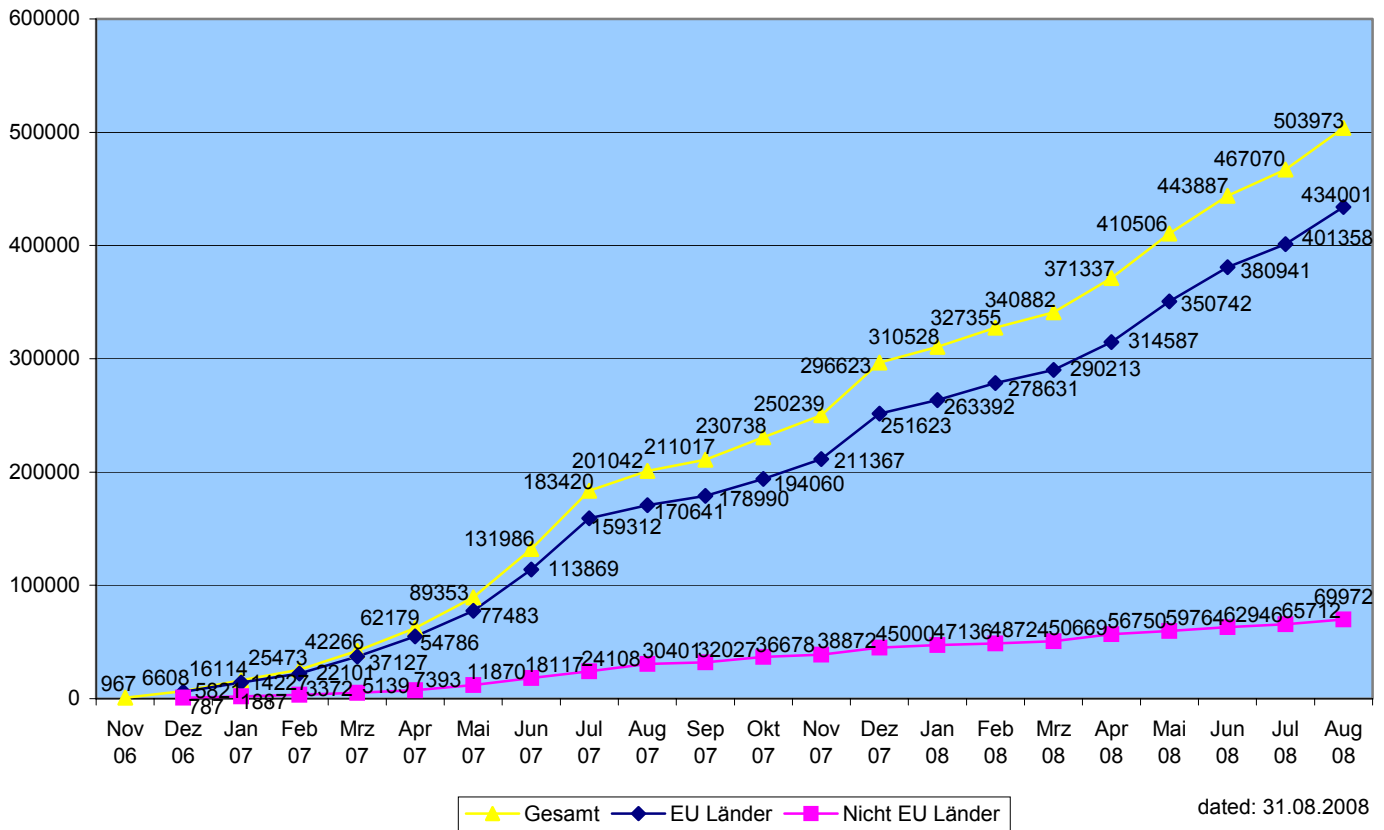

With heartfelt thanks and warm greetings

For the Action ELIANT-Team

Heike Sommer, Thomas Göing und Michaela Glöckler

PS: At the end of the newsletter you will find the latest appeal to pass on to all interested.

Signature Collection from November 2006 to August 2008

If anyone wants to support us also financially, he or she can do it through our donations account for the non-profit-making Foundation for Anthroposophic Medicine*:

Action ELIANT on to the Finish!

September 2008

Help us collect 1 million signatures by the end of 2008 in support of the Charter of the **European Alliance of Initiatives for Applied Anthroposophy / ELIANT**. In the meantime we have received more than 525.000 signatures from 137 countries. The joy to have reached this stage of our goal gives us the strength to make for the finish: one million.

If you or some of your acquaintances have not yet signed

For DEMETER-quality food for infants and young children without the addition of artificial vitamins,

For permits to market and distribute Anthroposophic medicines,

For recommendations to safeguard parental freedom of choice about education in a culturally diverse Europe

In this case you can support with your signature

ELIANT in using the public campaigning right established by the EU to help to shape European legislation to benefit qualified minorities,

ELIANT's strong democratic backing in developing contacts with partners of similar goals in the fields of culture, business and politics,

ELIANT to become an effective civil social force for Europe, with real cultural impact.

Your vote counts! Please help that DEMETER products, freedom of choice in education and free availability of specific anthroposophic remedies will receive the necessary legal safeguards.

Please make the Action known in your personal and professional environment. It is easiest, if you use your e-mail address book, newsletter or internet platform to draw attention to online signature collection: www.eliant.eu

Warm thanks!

For the ELIANT campaign support group Dr. jur. Jürgen Erdmenger, Nikolai Fuchs, MD Michaela Glöckler, Thomas Göing, Günther Schulz, Heike Sommer, Christof Wiechert.

If anyone wants to support us also financially, he or she can do it through our donations account for the non-profit-making Foundation for Anthroposophic Medicine*:
