

# Stuttgart 2016

## International Congress for Integrative Health & Medicine

Special guests from  
UN, WHO and PAHO

International Congress  
for Integrative Health & Medicine

From Disease Treatment  
to Health Creation

### A Defining Moment for Integrative Health & Medicine...

On June 9–11, 2016, in Stuttgart, Germany, the International Congress for Integrative Health & Medicine will bring together an **interprofessional lineup of leaders in Integrative Health & Medicine from around the world** to share clinical pearls, health policy, research, and successful models of care. The event is expected to attract over 1,000 practicing clinicians and healthcare leaders.

The program was designed for clinicians and will demonstrate how integrative health can inform **WHO Leadership Priorities and provide key solutions to pressing global health issues**. Invited special guests from multilateral organizations of the United Nations (World Health Organization, Pan-American Health Organization) will address key concepts such as the WHO Traditional Medicine Strategy. An international dialogue to advance the interprofessional integrative health and medicine movement will be facilitated.

June 9–11, 2016
